About United Board:

The United Board is committed to education that develops the whole person – intellectually, spiritually, and ethically.

We draw strength from our Christian identity, values and our collaboration with Asian colleges and universities. Together we prepare individuals for lives of professional and personal fulfillment and meaningful service in community with others. We endeavor to respond to the diverse challenges and opportunities facing our colleagues in higher education in Asia, especially where the needs are great. We share their interests in developing institutions that offer multidisciplinary education and that nurture a spirit of compassion, equity, reconciliation, social responsibility, and mutual respect among religious and cultural traditions.

Our approach is ecumenical and inclusive: our primary involvement is with Christian institutions, but we also reach out to other colleges and universities that share our commitment to whole person education. Solidarity with educators at these institutions forms the foundation of our work. Through their insights we identify needs and through their creative responses we find ways to address them collaboratively. Given our long history of working with higher education institutions in Asia, we believe that the United Board is uniquely positioned to promote an ecumenical, multi-faith, cross-cultural ministry on Asian campuses.
